

General description

The fusible links are designed for use in fire damper manufacture and available in the two most common types used in HVAC applications. Their reliability and performance are supported by a UL (Underwriter Laboratories) classification. Other models and types are available upon request.

Technical description

DESCRIPTION	TEMPERATURE	LOAD	C	L
CFLB-24-165 (Small)	165°F 72°C	10 lb. 4,5 Kg	0,938" 24 mm	1,438" 37 mm
CFLA-43-165 (Large)	165°F 72°C	30 lb. 13,5 Kg	1,750" 45 mm	2,625" 67 mm
