

**Quality, innovation
and reliability for
generations of HVAC
accessories**

6 specialised product ranges
one standard of excellence

ANTIVIB

ISOLFIX

AIRDIFF

INSTALDUCT

SUPPORTAIR

FLEXDUCT

DNA forged quality for HVAC accessories

Antivibration & Duct Connectors

Engineered to reduce vibrations and enhance stability

Insulation Fasteners & Tools

Insulation fasteners for secure and optimal performance

Air Distribution and Regulation

Precision air regulation for perfect airflow distribution

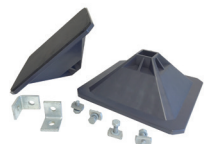

Duct Access, Suspension & Fixings

Secure and efficient support systems for HVAC installations

Support & Fixings

Essential solutions for secure duct installations

Flexible Ducts

Extensive range of flexible ducts for air distribution

FLEXIBLE DUCT CONNECTORS

Climatech, a **40 years legacy** **of excellence** in HVAC accessories design & manufacturing

Having constantly invested over the years, we are now able to offer a complete solution to our clients through:

- A large range of products, **manufactured in our facilities in Belgium and Spain** or produced with partners sharing our vision and values
- **High stock** of finished products
- **Deliveries in less than 48 hours** across Europe
- **Personalised products** to cater for each specific markets in the world.

5000+

Extensive range of HVAC solutions

40+

Over 40 years of industry expertise

75+

Global presence in 75+ countries

100+

Dedicated team of 100+ experts

Trade mark and certifications

To help engineers, entrepreneurs, and end users select the best quality products, Climatech created its own brand, **CLIM®**, **earned multiple certifications**, and joined leading industry organizations.

Since 1985, Climatech has driven HVAC innovation with quality, reliability, and strong partnerships. From a family-run business to a global leader, our journey reflects continuous growth and excellence.

MILESTONES

1985

Creation of Climatech

Creation of Climatech by François and Hortense Gohy, 100% family-run company.

2008

Acquisition of a new factory

To expand its machinery park and product storage to satisfy its growing numbers of customers, Climatech invest in a new 4800m² factory, located in Chaineux.

2012

Spain development

Climatech joins the shareholders of Rami-System, a manufacturer of assembly flanges for ventilations ducts, after more than 10 years of business relationship.

2016

Branch opening in New York

In order to offer a better service to its north and south American customers, Climatech decides to open a new office in New York, with stock and a commercial office.

2021

Factory extension

Strengthened by its success, Climatech decides to create a second storage unit and reaches 6 000m² to face the development of its activity.

2022

Creation of GV Clim

After many year of collaboration with GLV FLEX ITALIA and its owner Giorgio Valicante, Climatech is proud to announce the acquisition of GLV's flexible ducting division through the creation of GV CLIM Italia.

2023

Acquisition of Salpaflex

Climatech acquired this renowned Valencia-based flexible ducting manufacturer, expanding its presence, storage, and service in Spain and Portugal.

Vision

Contribute to a better satisfaction of international HVAC stakeholders.

Mission

Through strong personal long term relationships, built on core values, we supply an evolving range of products to HVAC distributors and OEMs worldwide.

Values

Partnership, integrity, respect, honesty, flexibility, responsiveness, responsibility, service, sustainability.

Born in Belgium
Active on all continents
Trusted worldwide
