**Application**

At a notch, cut a length equivalent to the perimeter required plus an overlap of 5 to 6 cm (2") for joining

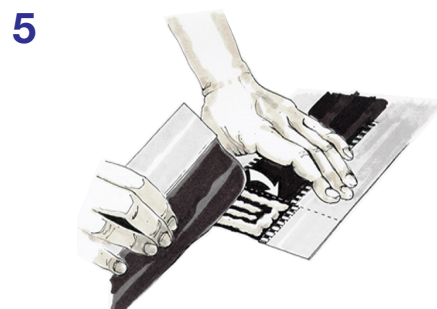

Lift the seam outwards at right angle

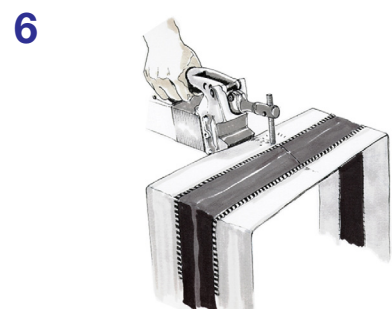

Make a cut at the edge of the lifted seam section

Bend down the seam whilst ensuring that the cloth remains fastened

Coat the cloth with the appropriate adhesive or use our self-adhesive pads (if appropriate). Join both sides and press together firmly

Spotweld the steel and form to the desired shape
