

## T - 301 - RG-95

### SINGLE BLADE DAMPER REGULATOR HARDWARE - AIR TIGHT

#### General description

Hardware used to manufacture single blade damper on either rectangular or round ducting. The kit includes a cylindrical cup with graduated scale, a 8x8mm square front spindle welded to the handle and 2 locking screws, a 8x8mm square rear spindle, 2 omega straps and 2 screws, 2 air tight washers with gasket and a locking washer clip for rear spindle. Suitable for external insulated ducting. The height of the cup allows the use of external insulation up to 50mm thick. Ideal for dampers up to 1000mm.

#### Technical description

- Cup and handle made out of galvanized steel
- Spindles and straps are in zinc plated steel
- EPDM rubber gasket
- 90° graduation dial on cup
- Class **D** air tightness
- No vibration no noise

#### Application

Front and rear spindle hole of 18 mm diameter necessary
