T - 3981 \_ CAD-HT & FAD-HT

### **General description**

The access doors for rectangular ducting (FAD-HT) and for round ducting (CAD-HT) consist of two panels connected between themselves with two screws, springs and knobs.

Thanks to the fitted ceramic gasket and the steel knobs, they will resist high temperatures up to 200°C (will meet 400°C /2H certification).

Access doors allow easy admittance to the ventilation ducting for the purpose of inspection and cleaning.

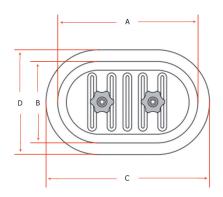

### **Technical specification**

| PANELS             | Material          | Galvanized steel                                    |  |
|--------------------|-------------------|---|--|
| SEALING GASKET     | Туре              | High quality ceramic gasket                         |  |
|                    | Dimension         | 4 mm x 18 mm  |  |
|                    | Density           | +/- 160 Kg / m³                                     |  |
|                    | Temperature range | - 30°C / + 1500 °C                                  |  |
| COMPONENTS         | Screws            | 2 screws: M8x40 or M10x40 crimped on internal panel |  |
| COMPRESSION SYSTEM | Springs           | 2 compressions springs                              |  |
|                    | Knobs             | 2 steel knobs with metal insert M8 or M10           |  |

Self-adhesive template comes with each door, for accurate cut-out

#### **Sizes**

| Door<br>type | Nominal<br>sizes | Actual sizes (mm)  The format is oblong, and the radius of the 4 angles is equivalent to the small size divided by 2. |     |     |     |  |
|--------------|------------------|---|-----|-----|-----|--|
| .,,,,        | (mm)             | Α   | В   | С   | D   |  |
| 18           | 180 x 80         | 170   | 72  | 197 | 101 |  |
| 20           | 200 x 100        | 200   | 100 | 219 | 117 |  |
| 25           | 250 x 150        | 250   | 150 | 274 | 186 |  |
| 30           | 300 x 200        | 300   | 200 | 329 | 228 |  |
| 42           | 400 x 200        | 380   | 180 | 412 | 212 |  |
| 40           | 400 x 300        | 380   | 280 | 403 | 303 |  |
| 50           | 500 x 400        | 500   | 400 | 532 | 432 |  |
| 60           | 600 x 450        | 600   | 450 | 627 | 480 |  |

For non standard duct diameter it is recommended to use the curved access doors with a diameter directly superior the requested diameter.

## Recommendations (based on EN 12097)

Access door needs to be fitted:

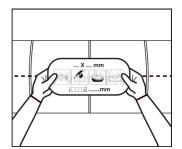

- before and after every fitting (dampers, fire dampers, filters, duct fans, duct heaters,...)
- after more than one change of direction of more than 45° as from the access door
- after more than one change of airflow as from the access door
- at least every 7,5 m

# **Application**

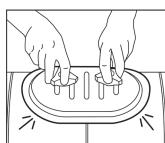

1. Stick self-adhesive template on to duct (a template is provided with each door)

2. Using Turbo Shears or similar cut around template taking care not to exceed the size of the template (the door will function correctly when cut to template size +0 mm -3 mm).

hand knobs until thread is level to align. Then tighten knobs. with top of bolt. Using both hands place the door in the hole at an angle.

3. Install door by unscrewing the 4. Turn straight and pull out slighlty
