

General description

The Turboshear TS1 is an inexpensive and necessary accessories to get in your toolbox for premium performance and big time saving.

Makes fast cuts in all types of sheet metal with the quick attachment to a cordless or electric drill.

Long-wearing, hardened jaws and an offset design keeping both hands away from work surface.

Capable of cutting up to 1mm (20 ga.) galvanised steel sheets and shear cuts to the left.

Extremely manoeuvrable, capable of making minimum 150x150mm (6"x6") square hole cuts.

Blind cuts require only a 13mm (1/2") starting hole for inserting the jaws into metal sheet

Technical description

Easy store in a tool box

Capable of galvanised steel cutting up to 1mm (20ga)

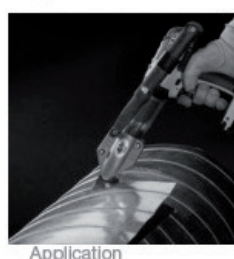

Lightweight cutting machine and ideal for installation of access doors on the jobsite

Can be use with a normal drill machine, no spark and no burr
